Jean Synodinos is an emerging self-taught abstract artist who works primarily in acrylics, mixed media, resin, and concrete. She is devoted to the application of texture and hue to explore the perfect imperfection of curves implied by nature as well as the lines imposed upon nature by people. Each canvas is finished with resin to amplify colors. Her work in concrete seeks to be both gracefully utilitarian and ruggedly decorative, and her hand-cast bowls can be found in over 100 Austin homes.

EDUCATION

Self-taught in art

Bachelor of Arts in Drama, Duke University, 1982
